first time. One moves at one's own pace - on one's own or with friends. This is not an award for past accomplishments. Instead, one is honored for achieving one's own challenging goals.

The Congressional Award has

no minimum grade point average requirements. It accommodates young people with special needs or disabilities who are willing to take the challenge.

## Empowered Forgiveness

...Continued from page 9.  
simple "thank you" is enough. To truly create a greater sense of harmony in our relationship, however, we need to gently, and with compassion, express our innermost concerns about what has transpired. By taking a deep breath and calling upon the deepest parts of our spirit, we can usually find the right words to say and verbalize them in a way that lets the other person

recognize! the consequences of what they have done.

If we can remember that our response to others is important, we can begin to realize that trust and forgiveness go hand in hand. And when we react in a way that engenders a greater amount of honesty and candor, we will establish a more positive and empowering way of being and interacting others.
