

# Enchanted Sea Crystals

...continued from page 20. best in your car or boat. The warmth of the sun activates them. Larger Sea Crystals are more effective at eliminating the smell of smoking, chemicals, mold and mildew or allergens such as pet dander, pollen, dust and airborne bacteria. Our large crystals are best suited for larger living rooms, family rooms, kitchens, garages, workshops, studios, etc. At work, they are ideal for hotel rooms, large conference rooms, waiting rooms, employee break rooms and kitchens (especially if employees are allowed to smoke) retail stores, hair salons, restaurants, coffee shops, art galleries and nightclubs.

Our Enchanted Sea Crystals come from the Caribbean. Seawater is dried in large

puddles and what is left is naturally formed sea salt crystals. We purchase them in bulk, and immerse them in natural coloring and cosmetic grade fragrance and essential oils. They are then attractively arranged in clear containers containing seashells, silk flowers and pearls. Each one is a decorative arrangement that compliments any decor.

The fragrance will last up to three months. A few drops of your favorite fragrance oil or perfume will renew their potpourri effect. However, scented or not they will still clean the air and neutralize odors.

Enchanted Sea Crystals can only be found in the Florida Keys. They make a wonderful gift or souvenir of your fabulous Florida Keys experience.

## Enchanted Sea Crystals

### Natural Sea Salt Potpourri

Perhaps you have noticed that your feeling of well being is intensified in pure mountain air, or at the seashore, or after a thunderstorm. This is due to the higher concentration of negative ions in these surroundings. Objects that release negative ions are believed to purify air and promote good health.

Enchanted Sea Crystals are pure ionic sea salt crystals, solar evaporated from the clear blue waters of the Caribbean Sea; colored in rich hues and infused with pure oils to provide lasting fragrance. The fragrance from the crystals is as strong as candles, yet it is safe to your health and environment.

Enchanted Sea Crystals will retain their fragrance up to three months (without adding more fragrance oil) depending on the environmental conditions of the room. Direct sunlight and strong air exposure will cause the fragrance oils to evaporate faster but will not affect the ionic value.

# Jason Poff

...continued from page 6. band, Stagger, with whom he hopes to continue the journey, utilizing Skype. Another notable member of Stagger, is Glen Kotche, who went on to join Wilco. As they do to many, the Keys beckoned to Poff. "The seemingly abundant amount of gigs in such a small area looked like a nice opportunity." It gave him an outlet to do what he loves best: playing live music.

Currently, Poff plays with Steve Venini, Scott Youngberg, and the Marathon-based band, Storm Watch.

## MEET THE FREE\* INSTANT ISSUE DEBIT CARD
