The Awesome Power Of A Wife's Love

A very old man lay dying. In death's doorway, he suddenly smelled the aroma of his favorite chocolate chip cookie waffing up the stairs.
He gathered his remaining strength and lifted himself from the

bed.
Leaning against the wall, he slowly made his way out of the bedroom, and with even greater effort forced himself down the stairs, gripping the railing with both hands.

There, spread out on newspapers on the kitchen table were literally hundreds of his favorite chocolate chip cookies.
Was it heaven? Or was it one final act of heroic love from his devoted wife, seeing to it that he left

this world a happy man?
Mustering one great final effort, he threw himself toward the table.
He was suddenly smacked with a spatula by his wife. "Stay out of those," she said, "They're for the funeral."

Bartender of the Month: Jenny Allen at Gilbert's

What do tiki bars, Lynyrd Skynyrd and microorganisms have in common? There's a new species, the tiki bar customer. Jenny and some lucky tiki bar customers will have the opportunity to experience Lynyrd Skynyrd* at Gilbert's January 19th and 20th. the customers will have the pleasure of being served by the beautiful and talented Jenny Allen.

Jenny hails from Kentucky where she earned a degree in biology at the University of Louisville. She also earned a full scholarship for swimming and academics. "The Keys has been my home for the last 10 years," says Allen. "I fell in love with the lifestyle, the friendly people and of course, the ocean, it is a biology major's dream location."

Since moving to the Keys,

Allen has worked at the Fish House Encore, the Island Grill at Mandalay and the Ocean Reef Club, where she honed her bartending skills.

"People naturally gravitate to her and she is a very popular bartender here, she is fun to work with too," say Jim Mazelin, a senior bartender at Gilbert's.

When asked what Allen likes most about Gilbert's she replied "The German burger is the best burger in the Keys! The managers Tamara and Robert are so easy to work

for, they are just great. It's an honor to work with so many veteran bartenders, the money is awesome and we

have an outstanding view of Jewfish Creek and the bay. Folks flock here to enjoy the newly expanded tiki bar. Happy hour is 4-7 pm and 9-12 pm Monday thru Saturday nights with the late night menu. There is live music day and night with the Keys best entertainers such as Alan Truesdell, Luke and Dave, Steve Venini, Jimmy Hawkins and John McKinna. On the weekends we enjoy some of

Miami's name bands too. We have all-new flatscreen TVs and even a magician, Michael Trixx is here Saturdays at sunset. You can come by boat and enjoy the pool or lounge on the beach. The raw bar here is famous, a lot of people come here just for that. Gilbert's is biker and pet friendly. People from Miami come to get away and stay in the old-style Keys hotel and rent paddle boards, wave runners boats or kayaks from Dave 305-293-7199" ...says Allen in one breath as she constantly scans the bar for customers in need of libations.

When Jenny is not at work she likes to follow NFL and horse racing. She won her league in Fantasy Football last year and every year she attends the Kentucky Derby.

*Editors note: Sorry but we found out at Press time Gilbert's and Lynyrd Skynyrd could not come to terms on the contract and the concert has been cancelled.

Enchanted Sea Crystals

Perhaps you have noticed that your feeling of well being is intensified in pure mountain air, or at the seashore, or after a thunderstorm. This is due to the higher concentration of negative ions in these surroundings. Objects that release negative ions are believed to purify air and promote good health.

Enchanted Sea Crystals are pure ionic sea salt crystals, solar evaporated from the clear blue waters of the Caribbean Sea; colored in rich hues and infused with pure oils to provide lasting fragrance. The fragrance from the crystals is as strong as candles, yet it is safe to your health and environment.

Enchanted Sea Crystals will retain their fragrance up to three months (without adding more fragrance oil) depending on the environmental conditions of the room. Direct sunlight and strong air exposure will cause the fragrance oils to evaporate faster but will not affect the ionic value.
