Perhaps you have noticed that your feeling of well being is intensified in pure mountair air, or at the seashore, or after a thunderstorm. This is due to the higher concentration of negative ions in these surroundings. Objects that release negative ions are believed to purify air and promote good health.

Enchanted Sea Crystals are pure ionic sea salt crystals, solar evaporated from the clear blue waters of the Caribbean Sea; colored in rich hues and infused with pure oils to provide lasting fragrance. The fragrance from the crystals is as strong as candles, yet it is safe to your health and environment.

Enchanted Sea Crystals will retain their fragrance up to three months (without adding more fragrance oil) depending on the environmental conditions of the room Direct sunlight and strong air exposure will cause the fragrance oils to evaporate faster but will not affect the ionic value.
