PUBLIC HEALTH EMERGENCY!

R.I.B.S* strikes over 50%
of people in some communi-
ties!

Do you...

Think the government is
spraying you with chemi-
cals from airlines?

Believe vaccines cause
autism?

Think "Big Pharma" is
conspiring to keep you
sick?

Believe that radio anten-
nas are capable of control-
ling the weather?

Think that 9/11 and Sandy
Hook are hoaxes?

Feel you are sensitive to
WiFi signals?

Believe that the chemicals
in e-liquid for e-cigarettes
are more harmful than
cigarettes?

If so, you may have been
exposed to R.I.B.S.! Random
Internet (or television)
Bullshit Syndrome.

RIBS spreads rapidly in
environments where critical
thinking is low, and gullibility
or the propensity to panic
without checking facts runs
high. There is no cure,
although there is strong
evidence that skepticism,
and demanding evidence has
a strong prophylactic effect.

I successfully quit smok-
ing 15 months ago with the
help of Keys Vapors -
located next to the Dollar
Tree at MM 102 bayside. I
weaned myself completely
off nicotine after 8 months.
This is a downright miracle
for someone who smoked 3
packs a day for 40 years.

I am no longer dependent
on my e-cigarette however I
do use it with 0% (nicotine)
liquid when I go out for
drinks with friends. It never
fails that some skinny,
wrinkled up, idiot chain

smoker walks up to me and
mentions that they saw on
television that the chemicals
in e-cigarettes are harmful
to your health... as they blow
smoke in my face.

Here is what you say to
those morons.

E-cigarettes are so suc-
cessful in helping people quit
smoking that they are cost-
ing the tobacco companies
millions of dollars. They can
no longer run commercials to
promote their cigarettes
because everyone knows
that cigarettes definitely do
cause cancer, so my profes-
sional opinion is that the big
cigarette companies are
paying the media to air this
nonsense! Arm yourself with
the truth.

The nicotine used in most
e-liquid has been extracted
from natural tobacco, in
accordance with the nicotine
replacement principles stan-
dard across industries. Only
pharmaceutical-grade ingre-
dients are used to ensure
finest quality, and all
e-products are subjected to
an expert authority for
approval.

E-Liquid has 99.9% less
chemicals compared to 4000
in tobacco cigarettes, plus
no tar or carbon monoxide.

Quitting smoking does
cause weight gain! I have
gained a lot, however, I no
longer have to gasp for air
and wonder if I am about to
have a heart attack. I no
longer fear an operation or a
mild case of the flu could kill
me.

My advice is if you want
to improve the quality of
your life and extend it, quit
smoking. Stop by and see
Howie, or AJ at Keys Vapors.
Stay away from tobacco
shops where you walk into a
cloud of smoke. Your addic-
tion is their livelihood.

VETERANS' DAY PARTY AT THE ELKS!

Tuesday, November 11th
6:00 to 9:30 pm

Live music!

Bobbe Brown
Michael Holler
