## Think Fast!

An elderly man in Louisiana had owned a large farm for several years.

He had a large pond in the back. It was properly shaped for swimming, so he fixed it up nice with picnic tables, horseshoe courts, and some apple and peach trees.

One evening the old farmer decided to go down to the pond, as he hadn't been there for a while, and look it over.

He grabbed a five-gallon bucket to bring back some fruit. As he neared the pond, he heard voices shouting and laughing with glee.

As he came closer, he saw it was a bunch of young women skinny-dipping in his pond. He made the women aware of his presence and they all went to the deep end.

One of the women shouted to him, 'we're not coming out until you leave!'

The old man frowned, 'I didn't come down here to watch you ladies swim naked or make you get out of the pond naked.'

Holding the bucket up he said, 'I'm here to feed the alligator...'

Some old men can still think fast!

WHAT DO YOU CALL A SNOBBISH CRIMINAL WALKING DOWN STAIRS?

## Teacher Arrested at JFK Airport

A public school teacher was arrested today at John F. Kennedy International Airport this morning as he attempted to board a flight while in possession of a ruler, a protractor, a compass, a slide-rule and a calculator. At a press conference just before noon today, Attorney General Eric Holder said he believes the man is a member of the notorious Al-Gebra movement. Although he did not identify the man, he confirmed the man has been charged by the FBI with carrying weapons of math instruction.

'Al-Gebra is a problem for us', the Attorney General said. They derive

solutions by means and extremes, and sometimes go off on tangents in search of absolute values. They use secret code names like "X" and "Y" and refer to themselves as "unknowns" but we have determined that they belong to a common denominator of the axis of medieval with coordinates in every country.

As the Greek philosopher Isosceles used to say, "There are 3 sides to every triangle." The Attorney General went on to say "Teaching our children sentient thought processes and equipping them to solve problems is dangerous and puts our government at risk."

Take Grama to Num Thai and check out her chopsticks skills.

Some days I just wish I had the wisdom of a ninety year old, the body of a twenty year old and the energy of a three year old.

Three blonde men are stranded on an island. Suddenly a fairy appears and offers to grant each one of them a wish.

The first blonde asks to be intelligent. Instantly, he is turned into a brown-haired man and swims off the island.

The next one asks to be even more intelligent than the previous one, so he is turned into a black-haired man. The black haired man builds a boat and sails off the island.

The third blonde asks to become even more intelligent than the previous two. The fairy turns him into a woman, and she walks across the bridge.
