## Signs Universal Messages

The universe is always offering us signs to help us,  
we just need to slow down and pay attention.

The universe can often relay messages to us through signs. Often, we are too busy to stop and consider what may or may not be a sign. We may ask the universe for guidance, yet fail to recognize the sign it sends us in response.

Learning the subtle language of signs can help you interpret the guidance the universe sends your way. We all have been blessed with a connection that allows the universe to communicate directly with us.

To be able to understand the information relayed over that connection, however, it is necessary that we learn to pay attention and know what to look for.

To see and correctly interpret a sign, you must open your heart and mind to the universe and invite its guidance into your life.

Many of us are blind to the signs we receive because we expect angels or our spirit guides to speak to us in a booming voice and tell us exactly what we need to hear. But signs are usually of this earth and therefore easier to encounter. A song lodged in

your mind or a number that seems to pop up everywhere you look after you've asked the universe for guidance can both be signs.

Signs may come through the animal world, from strangers, or jump out of a book in the form of an insightful passage. A sign may be a direct answer to one of your questions.

Other signs may point you in the right direction, warn of impending difficulties, or show you a different way. If you want the universe to send you a sign, tell it that you are ready and willing to accept its guidance.

Not everything you hear or see will be a sign. If you are receptive and patient, however, the signs you receive will become easier to recognize. It is important to listen to your intuition.

A sign can mean many things to different people, and only you can decipher a sign's meaning is for you. As you practice reading the signs and following their guidance, the universe will send more of them your way.
