Idiocy - is it contagious?

My husband and I went through the McDonald's drive-thru window and I gave the cashier a \$5 bill. Our total was \$4.25, so I also handed her 25¢. She said, 'you gave me too much money.'

I said, 'Yes I know, but this way you can just give me a dollar back.'

She sighed and went to get the manager who asked me to repeat my request.

I did so, and he handed me back the 25¢, and said 'We're sorry but we don't do that kind of thing.'

The cashier then proceeded to give me back 75 cents in change.

Do not confuse the people at MacDonald's.

We had to have the garage door repaired.

The repairman told us that one of our problems was that we did not have a large enough motor on the opener.

I thought for a minute, and said that we had the largest one made at that time, a 1/2 horsepower.

He shook his head and said, "You need a 1/4 horsepower."

I responded that 1/2 was larger than 1/4 and he said, "No it's not. Four is larger than two."

Is it safe for him to operate tools?.

From the Lower Keys:

We recently had a new neighbor call the county commissioners office to request the removal of the KEY DEER CROSSING sign on US 1. The reason: "Too many deer are being hit by cars out here! I don't think this is a good place for them to be crossing anymore."

Our daughter went to a South Miami Mexican fast food place and ordered a taco.

She asked the person behind the counter for "minimal lettuce."

He said he was sorry, but they only had iceberg.

I was at the airport, checking in at the gate when an airport employee asked, "Has anyone put anything in your baggage without your knowledge?"

I replied, "If it was without my knowledge, how would I know?"

He smiled knowingly and nodded, "That's why we ask."

The crosswalk light at MM 100 beeps when it's safe to cross the street. I was crossing with an "intellectually challenged" co-worker of mine.

She asked if I knew what the beeper was for.

I explained that it signals blind people when the light is red.

Appalled, she responded, "What on earth are blind people doing driving?!"

She is a government employee, by the way.

When my husband and I arrived at a car dealership to pick up our car after a service, we were told the keys had been locked in it.

We went to the service department and found a mechanic working feverishly to unlock the driver's side door.

As I watched from the passenger side, I instinctively tried the door handle and discovered that it was unlocked.

"Hey," I announced to the technician, "It's open!"

His reply, "I know. I already did that side."
