

ABOUT THAT LOCKDOWN

Just be careful because people are going crazy from being in lockdown!

Actually, I've just been talking about this with the microwave and toaster while drinking coffee and we all agreed that things are getting bad.

I didn't mention anything to the washing machine as she puts a different spin on everything. Certainly not to the fridge as he is acting cold and distant. In the end, the iron straightened me out as she said everything will be fine, no situation is too pressing. The vacuum was very unsympathetic... told me to just suck it up, but the fan was more optimistic and hoped it would all soon blow over! The toilet looked a bit flushed when I asked its opinion and didn't say anything but the doorknob told me to get a grip! The front door said I was unhinged and so the curtains told me to... yes, you guessed it... pull myself together!

Hurricane Season - The Essentials

We at the Coconut Telegraph know how important hurricane information is to our readers, so we have distilled this to the essentials.

If you own a home, you must have hurricane insurance. Fortunately it's cheap if your home meets two basic requirements:

1. Your home is well built
2. It is located in Nebraska

Hurricane Shutters:

Plywood shutters

Advantage: you make them yourself, they're cheap.

Disadvantage: because you make them yourself, they will fall off.

Sheet metal shutters

These work well, once you get them all up. But once you get them up, your hands will be useless bleeding stumps that will not heal until December.

Mandatory Evacuation:

Instead of being trapped in your home, you will be

trapped in your car, and stuck in traffic.

Supplies:

If you decide not to evacuate, do not buy them now. Wait until the last possible minute so you can get into a fight with strangers over that last bottle of water at your local supermarket.

In addition to water you will need plenty of alcohol, in case you are stuck in home with relatives. Even if you don't use it now, it's practical. You won't need to restock for holidays.

Also, don't forget 23 flashlights and at least \$168 worth of batteries (count on the

Have plenty of hydrating beverages and nutritious snacks on hand.

fact they will all be wrong size when the power goes off).

Buy plenty of ice so your drinks are cold.

You may also want to get large quantities of raw chicken to placate the alligators. Just remember you can't freeze it if you don't use it right away, because the power will be off.

These are all just basic precautions. Be ready to watch your weather man for five days straight. Stay safe!

Preparation is so important. Make sure the caliber of ammo is right for your guns!
