Editorial - Legitimate Fears

1. Wiccaphobia. This is our irrational fear of witches.

2. Kinemortophobia is a fear of zombies, and with so much attention being paid to fictional zombie apocalypses on TV and at the movies, this may be on the rise.

3. Phasmophobia is the fear of ghosts.

4. Ailurophobia. Afraid of a black cat crossing your path, or any cat? Ailurophobia is fear of cats.

5. Coulrophobia. A surprising number of people are afraid of clowns and coulrophobia is the name given to this fear.

6. Pediophobia. Remember Robert the Doll? Pediopho-

bia is fear of dolls.

7. Nyctophobia. This is the quite commonly known fear of the dark.

8. Necrophobia. Sometimes just the sight of a dead body is enough to send chills up one's spine; necrophobia is the fear of corpses.

9. Aichmophobia. What's a slasher film without a knife-wielding maniac to play on our fear of knives and other sharp objects?

10. Teratophobia. Since the early days of motion pictures, monster movies have been top-grossing hits, playing on people's teratophobia, or fear of monsters.

11. Sanguivoriphobia is the fear of vampires.

12. Taphophobia is the fear of being buried alive; it also applies to the fear of graves or tombs in general.

13. Domatophobia is the fear of houses. Combine it with phasmophobia, and you've got a fear of haunted houses.

14. Clinophobia. Clinophobia is the fear of going to bed.

15. Arachnophobia. The fear of spiders, which is a more common phobia.

16. Chiroptophobia. The fear of bats.

17. Ophidiophobia. This is the fear of snakes.

18. Selenophobia. Afraid of the full moon? That's selenophobia.

19. Lupophobia is the fear of werewolves—and perhaps, for some, the cause of selenophobia.

20. Astrophobia. Science fiction movies may come a set of fears all their own, such as this, the fear of outer space.

21. Alienophobia. This is easy to figure out—the fear of aliens.

Let's be clear: Phobias can seriously impair people, so they are no laughing matter. If a phobia is causing problems in your life, please seek counseling.

Happy Halloween!

Good Health Clinic - GOOD NEWS!
Dr. Steven Lawyer is at the Good Health Clinic!

Dr. Lawyer has been my family doctor since I moved to the upper Keys over 30 years ago. He has always gone the extra mile for his patients.

He joined the clinic as Medical Director in August of last year after volunteering for a few months. As Medical Director, Dr. Lawyer oversees the healthcare of our patients and helps us develop our medical policies.

"We are honored to have such a talented and respected doctor on our team. As the clinic continues to grow, having such a skilled physician to handle our patients' medical needs is a gift. He is truly dedicated to providing the best possible care to our patients," said Kate Banick, Executive Director.

Good Health Clinic offers Free medical care for uninsured Florida Keys residents in need. It is the only free clinic serving Florida Keys residents of all ages who are low-income and uninsured. They not only provide primary care within the clinic but also provide diagnostic and specialty care for their patients through partnerships with over 100 volunteer providers throughout the Florida Keys and South Florida. The clinic is in its 16th year of service, and 2 years ago opened a second office in Marathon to improve access to healthcare for those in the middle and lower Keys.

To be a patient at the clinic, individuals must complete a short application which can be picked up at either of the offices or found online at www.thegoodhealthclinic.org. You can even access your health records on-line on their website.

The Good Health Clinic offers in-person Covid testing and there is no tele-med. A friend of mine in Key Largo was ill and consulted a doctor via tele-med who told him he "possibly" had Covid or the flu. He died a few days later from complications from diabetes!

The Good Health Clinic is located in Tavernier 305-853-1788 and in Marathon 305-946-1314 for an appointment. (Either office may be reached by calling: 305-853-1788.)

Not a patient but want to help? The Good Health Clinic is a private not-for-profit supported by grants and individual donors. Donations are gratefully accepted.

Monroe County Sheriff's Office
Marine Theft Prevention

- Remove the keys from the boat; if it is on a lift, turn the breaker off in the house to disable it.
- Install motion sensor lights. Make sure areas around the boat are well lighted.
- Install surveillance cameras and make sure they will capture the face of an intruder. Cameras are often installed too high and only capture the top of a suspect's head or the brim of the hat he is wearing.
- Whether on a trailer or in a canal, make sure your boat can be seen by neighbors and/or deputies patrolling the neighborhood.
- Remove the steering wheel if the boat won't be used for a long time.
- Install a GPS tracking device on your boat and/or engines.
- Install a boat alarm. Alarms are very effective at preventing equipment and boat theft.
- Disconnect the batteries to disable the trim / tilt function. Keep the engine down, touching the ground so the lower unit can't be removed.
- If the boat is on a trailer, chain the rims together or boot one of the wheels to prevent the entire boat and trailer from being stolen.
- Keep a trailer hitch lock on at all times.
- Install bolt locks on the engine or put extra-long engine bolts on and bend the ends.
- Destroy the threads on one bolt so the nut can't be removed.
- Back the boat close to a house, wall, or other stationary object.
- Keep valuable electronics in a secure location. It might be a hassle, but it will save you thousands of dollars in the long run.
- Engrave your driver's license number or make a distinctive marking on your valuable property for identification.
- Take pictures and record serial numbers if available.
- Don't leave fishing and diving equipment unattended outside. It only takes a thief a minute - literally - to take it.
- If you are gone for an extended period, call your local Sheriff's Office substation. Our deputies will keep an eye on your property while you are away.

Best Halloween Story:

“I grew up in a college town, and one Halloween our doorbell rang and we opened the door expecting to see trick or treaters, but what was in front of our open door — was another door! Like, a full-on wooden door, that had a sign that said “Please knock.”

So we did, and the door swung open to reveal a bunch of college dudes dressed as old grandmothers, curlers in their hair, etc, who proceeded to coo over our “cos-tumes” and tell us we were “such cute trick or treaters!” One even pinched my cheek.

Then THEY gave US candy, closed their door, picked it up and walked to the next house.”

Human: “Oh my god... I'm turning into... A VAMPIRE!”
Vampire: “Wha...how!? I didn't even bite you yet!”

A little old lady was walking down the street dragging two large plastic garbage bags behind her. One of the bags was ripped and every once in awhile a \$20 bill fell out onto the sidewalk.

Noticing this, a policeman stopped her, and said, “Ma’am, there are \$20 bills falling out of that bag.”

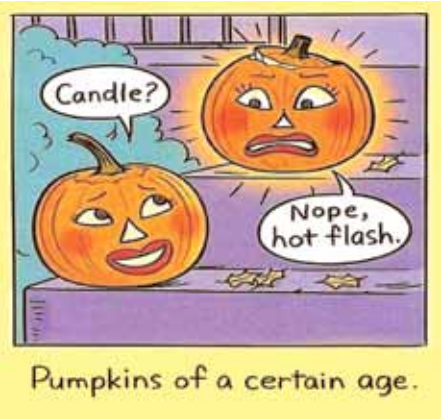

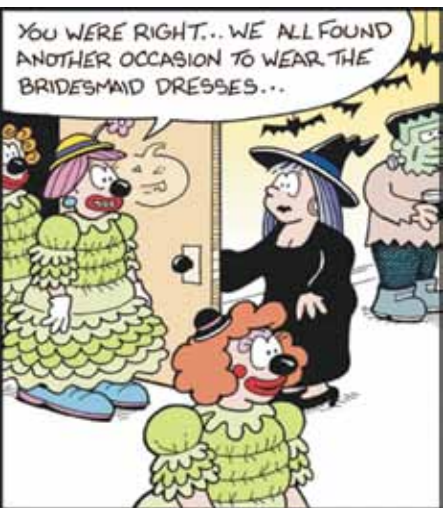

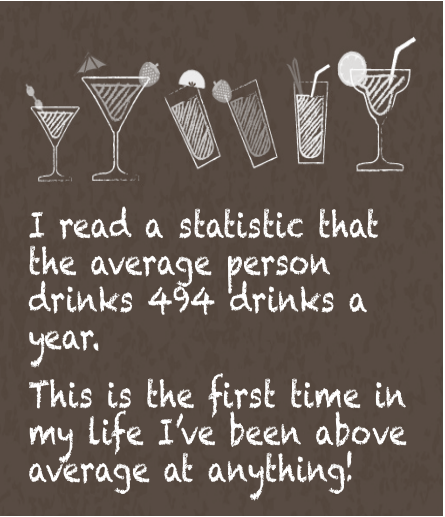

“Oh, really? Darn it!” said the little old lady. “I’d better go back and see if I can find them. Thanks for telling me, Officer.”

“Well, now, not so fast,” said the cop. “Where did you get all that money? You didn’t steal it, did you?”

“Oh, no, no”, said the old lady. “You see, my back yard is right next to a Golf course. A lot of Golfers come and pee through a knot hole in my fence, right into my flower garden. It used to really tick me off Kills the flowers, you know. Then I thought, ‘why not make the best of it?’ So, now, I stand behind the fence by the knot hole, real quiet, with my hedge clippers. Every time some guy sticks his thing through my fence, I surprise him, grab hold of it and say, ‘O.K., buddy! Give me \$20 or off it comes!’

“Well, that seems only fair,” said the cop, laughing. “OK. Good luck! Oh, by the way, what’s in the other bag?”

“Not everybody pays.”

A former Sergeant in the Marine Corps took a new job as a high school teacher.

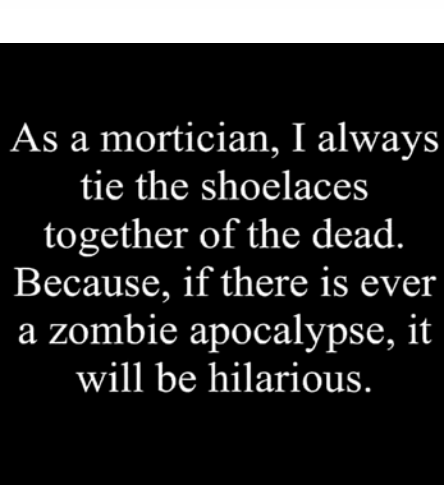

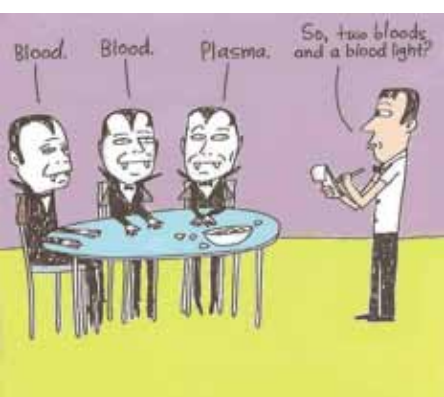

Just before the school year started, he injured his back. He was required to wear a plaster cast around the upper part of his body. Fortunately, the cast fit under his shirt and wasn't noticeable.

On the first day of class, he found himself assigned to the toughest students in the school. The smart punks, having already heard the new teacher was a former Marine, were leery of him and he knew they would be testing his discipline in the classroom.

Walking confidently into the rowdy classroom, the new teacher opened the window wide and sat down at his desk. When a strong breeze made his tie flap, he picked up a stapler and stapled the tie to his chest.

Dead silence...

The rest of the year went very smoothly.

Dolly Parton and Queen Elizabeth went to the Pearly Gates on the same day. They both met with an angel to find out if they would be admitted to Heaven.

The angel said: “Unfortunately, there’s only one space available in Heaven today so I must decide which one of you will be admitted.”

The angel asked Dolly if there was some particular reason why she should go to Heaven. Dolly took off her top and said: “Look at these, I’ve been told they’re the most perfect breasts God ever created and I’m sure it will please God to be able to see them every day, for eternity.”

The angel thanked Dolly, and asked Her Majesty, Queen Elizabeth the same question.

The Queen walked over to a toilet, pulled the lever and flushed it without saying a word.

The Angel immediately said: “Okay, your Majesty, you may go into Heaven.”

Dolly was outraged and asked, “What was that all about? I showed you two of God’s own perfect creations and you turned me down. She simply flushed a commode and she got admitted to Heaven! Would you explain that to me?”

“Sorry, Dolly,” said the Angel, “but even in Heaven, a royal flush beats a pair, no matter how big they are.

Energy Of A Home

Everything and everybody that enters your home creates an energy and leaves a footprint.

Our homes are filled with energy that we create and allow to flourish. In many cases, our relationship with the pulse of our homes is passive rather than active because we do not pay particular heed to the energy that has been established. It is only when we regard these spaces as unique entities that we begin to understand why it is necessary to take charge of the energy that fills our homes.

Stagnant, inharmonious energy can find its way into our dwellings through many avenues. Previous occupants, builders, visitors, and the individuals who maintain a home leave a strong energy imprint behind. Objects and symbols can also have an effect on the energy of a residence. When we are aware, we are empowered to create harmonious homes that do more than meet our need for shelter.

Exercising care with regard to who and what we invite into our homes is one of the easiest ways we can ensure that the energy within remains loving and supportive. It is not always possible to keep poten-

tially harmful people and possessions from entering our homes, but we can take precautions. Individuals can be kept from private spaces like bedrooms and meditation areas, while property can be purified through cleansing or smudging.

During periods of remodeling or construction, Reiki symbols and other positive imagery can be printed on surfaces that will later be covered by walls or flooring. Though hidden, these will continue to attract good energy and cleanse the existent energy.

A home can appear beautiful, comfortable, and stable while still serving as a dwelling place for negative or otherwise offensive energy. If you care for your home conscientiously and with great care, you will instinctively look beyond the surface qualities of your home when assessing how it feels.

The spirit of your spaces will respond to your thoughtful ministrations, nurturing and supporting you for as long as you choose to reside within her walls.

Police Work and Pumpkins

Police work can be entertaining as well as dangerous. Recently, a female Sheriff's Deputy arrested Patrick Lawrence, a 22 year old white male, who was fornicating with a pumpkin in the middle of a field at night. The next day, at the Gwinnett County (GA) courthouse, Lawrence was charged with lewd and lascivious behavior, public indecency and public intoxication. The suspect explained that he was passing a pumpkin patch on his way home from a drinking session when he decided to stop.

'You know how a pumpkin is soft and squishy inside, and there was no one around for miles, or at least I thought there was no one around,' he stated. Lawrence went on to say that he pulled over to the side of the road, picked out a pumpkin that he felt was appropriate to his purpose, cut a hole in it and proceeded to satisfy his pressing need. 'Guess I was really into it, y'know?' he commented with evident embarrassment.

In the process of doing the deed, Lawrence failed to notice an approaching sheriff's car and was unaware of his audience until Deputy Brenda Taylor approached him. 'It was an unusual situation, that's for sure,' said Deputy Taylor. 'I walked up to Lawrence and he's just humping away at this pumpkin.'

Deputy Taylor went on to describe what happened when she approached Lawrence ... 'I said excuse me sir, but do you realize that you're having sex with a pumpkin?'

He froze and was clearly very surprised that I was there, and then he looked me straight in the face and said, 'A pumpkin? Shit ... Is it midnight already?'

The court (and the judge) could not contain their laughter. Lawrence was found guilty only of public intoxication, fined \$10.00 and sent on his way.

The Washington Post wrote an article describing this as "The best come-back line ever."
