

We are multidimensional beings and our earthly aspects are a very small part of who we are.

Many of us are familiar with the experience of waking up to the fact that our lives are no longer working the way we have set them up. Sometimes this is due to a shift occurring inside ourselves over time, and sometimes it is part of the larger shift that is currently affecting all humanity. Change is happening at such an increased rate that it is difficult to predict what the future holds. As a result, many of the old ways of planning out a life are no longer applicable, and if we cling to them we feel strangely out of tune with reality. If we are in tune with the energies around us, we will begin to question ideas that just a few years ago seemed sensible.

In the simplest terms, the shift we are undergoing right now has to do with recognizing ourselves as being more than human, remembering that our earthly aspects are a very small part of who we are. In truth, we are multidimensional beings.

When we begin to realize this, the life we planned for a limited conception of ourselves no longer fits. We must meet the needs and qualifications not only of our bodies but also of our souls. This realization dawns slowly for some and with the suddenness of a bolt of lightning for others, and we all must find the way that works for us to integrate this new and larger sense of self into our life plan.

Sometimes a drastic change feels totally right, and overnight we might decide to sell our home and move to another country or quit a job and begin another career. Other times, we allow the changes to proceed slowly, beginning perhaps with allowing ourselves to dream of a new life or just to ask the deeper questions that encourage us to discover our true purpose in life. Either way, know that this process is a natural sign of the growth we are all going through, and trust it to guide you to the life of your dreams.

18 Ways to Leave Your Lover

If people broke up with each other the same way they use cheesy pick up lines, the world would be a much happier place—full of giggling, constant sunshine, and far fewer tears.

Hey babe I think is time we take our relationship to the previous level.

They say one man's trash is another man's treasure. I hope you find someone who treasures you.

If you take the "L" out of LOVER. Its OVER.

Hey babe, I think its about time we cancel our gym membership. We're not working out anymore.

Girl you're looking like a snack and I'm going on a diet.

Hey baby, are you in a tunnel? Because we're breaking up.

I think we need to become better strangers.

You remind me of Halley's Comet. I don't wanna see you again for another 74 years.

We need to cover more ground so we should split up.

I will always cherish my initial misconceptions of you.

Roses are red, violets are blue, trash is dumped and so are you.

Are you a dollar bill? Because you're single.

Hey, are you an anchor? Because you've done nothing but weigh me down.

Are we tectonic plates? Because we're drifting apart.

Damn girl are you being followed? Cause I been seeing people behind your back.

Raise your hand if you have a boyfriend. Not so fast...

Hey baby, I think I'm going blind. Because I can't see you anymore.

Will you be the sun in my life? Then stay millions of miles away from me.
